**Hampstead Heath by Living in Space**

Images: Living in Space

This spectacular property was entirely refurbished from start to finish by architectural design company, [Living in Space](#). It is a large 6 bedrooms, 6-bathroom home in the heart of North West London. Every room was individually designed and finished with a purpose for each in mind. ■

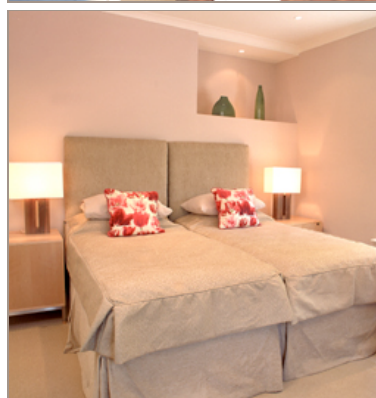

ShareThis

Many furniture items are bespoke and created by our team. The bathrooms were designed and fitted by our own build team even detailing hand built washbasins. The house was initially quite traditional and the brief was to create a property for today's living with a more classic / contemporary feel, yet comfortable and chic'. All aspects were developed from space planning, lighting, flooring and joinery to curtains, furniture, bedspreads and accessories. Living in Space sourced antique pieces, such as the Chinese medicine chest in the bedroom, and yet some contemporary designer pieces such as the chaise in the living room fitted well throughout the interior.
